# Aastha Sharma

Aspiring Software Engineer | B.Tech CSE Student (3rd Year)

Phone: +91 9140121471 | Email: aastha90249@gmail.com | Location:Deoria Khas, Deoria, Uttar Pradesh

## Professional Summary

Computer Science and Engineering student with strong foundations in Python, C, Object-Oriented Programming, SQL, Data Structures & Algorithms, and File Handling. Completed a Python Development Virtual Internship at EiSystems Technologies (June – August 2026), building practical programming skills through hands-on projects. Passionate about software development and eager to contribute to real-world engineering teams through internships.

## Education

**Maa Pateshwari Devi Rajkiya Engineering College, Gonda (AKTU Affiliated)**

- Bachelor of Technology – Computer Science & Engineering [2024 – 2028]

**RBT Vidyalaya, Deoria**

- Class XII – 87.17%

**Y.N. Senior Secondary School, Deoria**

- Class X – 89.17%

## Skills

**Technical Skills:** Python, C, Java Programming (Academic), Flask, SQLite, Machine Learning (Basics)

**Core Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms, File Handling, Exception Handling, Problem Solving

**Tools:** VS Code, Canva, Microsoft Excel, PowerPoint, Microsoft Word

## Academic and Professional Experiences

**EiSystems Technologies (Virtual Internship)** – June 2026 – August 2026

- Developed Python applications using functions, OOP, file handling, and exception handling.
- Built console-based software projects to strengthen programming fundamentals.
- Practiced debugging, modular programming, and problem-solving through coding assignments.
- Developed a Smart Campus Attendance system using face recognition and QR-based student ID (internship project).

**Volunteer Tutor** – Koshish Education Club, REC Ambedkarnagar [2024 – 2025]

- Volunteered to teach Mathematics, Science, and basic digital literacy to students from nearby communities free of cost.
- Conducted interactive learning sessions to strengthen fundamental concepts.
- Contributed to the college's community outreach initiative by promoting accessible education.

## Academic Projects

**Dynamic Inventory Lifespan Prediction & Markdown Intelligence Engine** (Machine Learning / Web Development)

- Technologies: Python, Flask, SQLite, Machine Learning
- Developed a smart inventory management system to monitor stock levels and estimate inventory lifespan.
- Identified expiry risks and generated intelligent restocking and markdown recommendations.

**Smart Campus Attendance via Face and QR-Based Student ID** (Python Internship Project)

- Technologies: Python, Face Recognition, QR Code
- Built an attendance management system combining face recognition and QR-based student identification.
- Designed to support a smart and efficient campus attendance process.

**Student Information Management System (C)**

- Technologies: C, Linked Lists
- Developed a menu-driven application to manage student records.
- Implemented Create, Search, Update, and Delete operations.

**Quiz Management System (Python)**

- Built an interactive quiz application with score calculation and input validation.
- Used dictionaries, loops, functions, and conditional statements.

**To-Do List Application**

- Technologies: Python, File Handling
- Developed a task management system supporting Add, View, Update, and Delete operations.
- Stored task data using text files.

**Number Guessing Game**

- Technologies: Python, C
- Created a console-based game using random number generation and conditional logic.

## Certifications

- TCS iON Career Edge – Young Professional (Leadership & Professionalism)
- Python Development Virtual Internship – EiSystems Technologies (June – August 2026)

## Languages

Hindi (Native), English (Intermediate)

## Extracurricular Activities

- Media Council Member – Design posters, thumbnails, and other creatives for college events, festivals, and celebrated days.
